

Ventura County Autism Society Community Talk Night

Friday, March 19th
7:00-9:00pm

Early Diagnosis and Medical Management of Autism: A Developmental Pediatrician's Perspective

Discussion will include a historical perspective of autism, genetic and/or environmental etiologies, abnormal neural development and pathogenesis of abnormal brain function, and medical evaluation and treatment options based on consensus practice parameters.

Presented by: Anshu Batra, M.D. , F.A.A.P

Anshu Batra, M.D., F.A.A.P. graduated from the University of Michigan Medical School and completed her pediatric training at the University of North Carolina, Chapel Hill. She has been a dedicated pediatrician in private practice for 15 years, specializing in the evaluation and treatment of children with early childhood developmental delays, including Autism. Dr. Batra's approach has

been inclusive and she welcomes input from a broad array of therapists, educators, psychologists and other professionals working with children.

Anshu is the proud mother of three children, one of whom is diagnosed with autism. Her personal journey has also made her an outspoken advocate for early identification and intervention of children with developmental disabilities, especially Autism.
